SINK SETS AND ACCESSORIES

BE INSPIRED !

## FORM, FUNCTION AND FINESSE

Beautifully designed for any space, the SmartStation sets are as efficient as they are stunning! Equipped with all the right accessories, every set centralizes prepping and cleaning tasks leading to great feasts.

### INDISPENSABLE ACCESSORIES

More than a finishing touch, accessories included with the SmartStation sets are undeniable allies. Accessories not to be missed: serving bin with bowls and the serving board with mixing bowl and colander.

All accessories included in the SmartStation sets are available in maple or walnut.

### FUNCTIONAL AT EVERY LEVEL

The SmartStation sets are brilliantly designed to accommodate a large selection of accessories sliding from side to side of the bowl on two levels. Whether sitting on the countertop or on the lower ledge, accessories can be dropped off and used at the same time.

### SPLENDOR BEING REVEALED

SmartStation introduces a micro-collection of sink and accessory sets designed for a reveal installation, the ideal solution for a seamless integration. Upper level accessories slide smoothly on the sink deck for a flawless performance.

## À LA CARTE OPTIONS

Consider adding one or more À la Carte options to transform your SmartStation sink into an ultra-functional workstation.
